

Plan B (Cases in South Glos below 50 per 100,000)

Group Organiser/Leader Requirements for using Green Community Travel:

- All passengers must wear a face mask or covering (face shields are also acceptable.)
- All passengers must use hand sanitiser before boarding the vehicle.
- Passengers should sit in the same seat on their outbound and inbound journey.
- If using a GCT Driver, they will need to check each passenger's temperature before they board the vehicle (using temperature gun from GCT office.) Groups with their own driver can decide whether they wish to do this.
- Passengers will be able to sit together, GCT will ask passengers to continue to wear Face Masks/Coverings.
- GCT will also ask if passengers have been double vaccinated.
- As children are unlikely to have been vaccinated they will be seated so they are still 2m from the driver as children are also exempt from wearing Face Masks/Coverings.
- Group leaders/organisers must confirm with individual passengers that they have no coronavirus symptoms on the day of travel. (High temperature, new continuous cough, change of sense of smell and change of sense of taste.)
- On booking GCT will assess each group/organisation and prepare a seating plan (if necessary.) Depending on number of passengers it may be necessary to use x2 minibuses so please book as soon as possible to ensure vehicle availability.
- We are constantly reviewing the government guidance and will update our policies in line with any changes.
